

TOP COLLABORATIVE LAUNCH

Our AIM: to increase the system-wide optimization of anti-psychotic treatment in community settings amongst our clients living with schizophrenia/ schizoaffective disorder

QI

QUALITY IMPROVEMENT

WHAT are we trying to do?

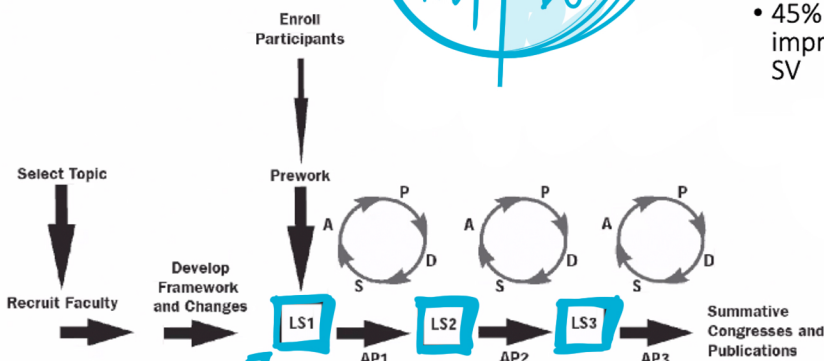

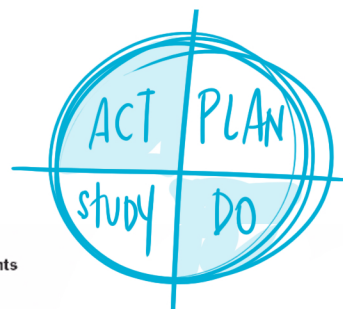

HOW will we know there's improvement?

WHAT can we do about it?

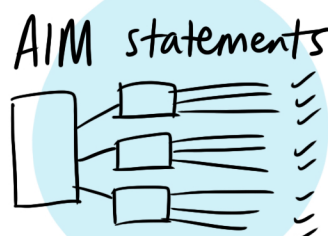

AIM:

By June 2022 we aim to reach the following:

- 100% of clients with treatment resistant schizophrenia (TRS) will be offered clozapine
- 90% of clients who are eligible for a clozapine start in the community, and who accept the treatment, will undergo titration in the community
- 45% of clients undergoing clozapine treatment will see an improvement in their functioning as assessed by HONOS and PANSS-SV

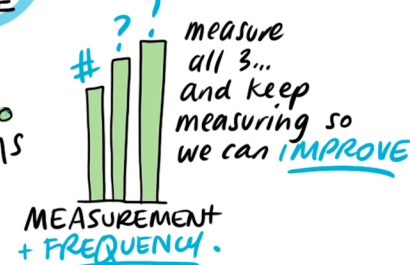

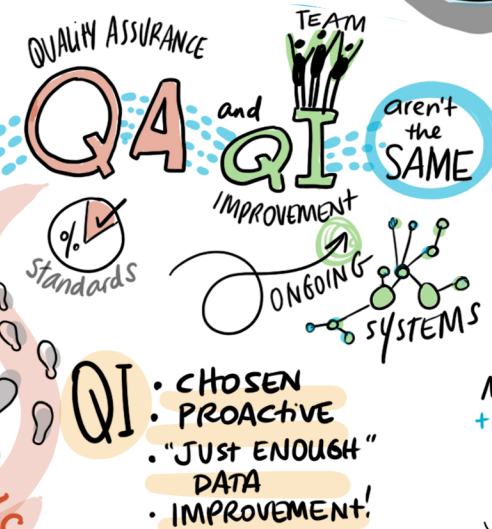

TECHNICAL TOOLS & DOCUMENTS

LEARNING SESSIONS (accredited)

REGULAR MEETINGS

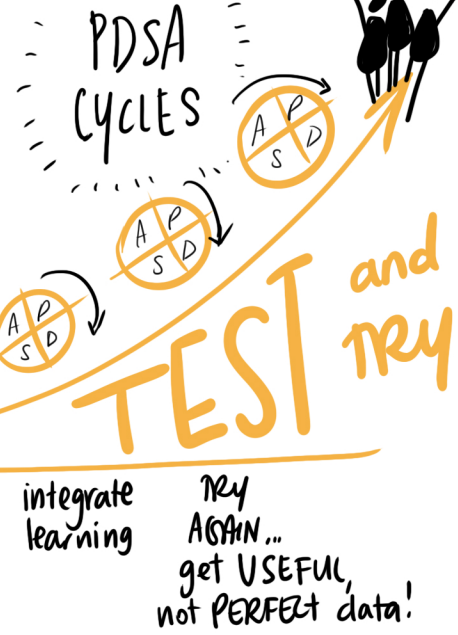

QI is a JOURNEY OF MANY SMALL STEPS

MOST PROBLEMS are in PROCESSES not PEOPLE

EACH PROCESS is perfectly designed to get the RESULTS Achieved

performance management Find the Balance

AIM

Discussion about team AIM statements:

- discussion of psycho-social supports, optimizing other aspects of treatment medication options
- ensure that we have good client buy-in for clozapine treatment- eg with motivational interviewing
- offering education to clients and resources

CHANGE & TRANSFORMATION STARTS... WITH a VILLAGE! LIKE US... BRING THIS ENERGY BACK & SHAPE THE CHANGE we need! MICHAEL NORBURY
